About Me

Design Leader with a strong record of cross functional collaboration, and mentoring teams across B2C, B2B SaaS. Driven by a problem-first and user-first mindset, prioritizing a deep understanding of user needs and business challenges to deliver impactful solutions. Advocating culture of continuous learning, I empower teams to consistently produce delightful experiences, eager to apply my strategic vision and people management skills as a design manager to drive innovation, product excellence and measurable growth.

Work Experience

Meesho

(Apr 2022
- Present)

Lead Product Designer

Shaping end user mobile experience of Meesho.

Pioneered the design vision for strategic programs

Meesho Mall and Meesho Gold: Led these flagship branded programs from inception, shaping strategy and evolution through continuous user learning. Mentored junior designers running design critiques and raising craft quality across the team.

Revamped post-order journeys to reduce cancellations

and boost NPS: Led a team in overhauling order tracking, Meesho balance comprehension, resulting in higher NPS & reduction in order cancellation.

Helping Intent channelization for Meesho users:

Translated complex projects like Intent channelization levers for rural users, category specific feeds, Meesho Reels, filtering systems into actionable user-centric designs that set new standards for engagement.

Flyhomes
